Mr. Willis:

I would like to thank you and your Association for your time and effort working with Officer Fletcher and our Police Department in acquiring the CMI Intoxylizer Portable Breath Testers. Our City has very limited resources to purchase many of the tools that are needed in this day and age for execution of criminal investigations.

If you should need any assistance from our City or Police Department, please do not hesitate to ask. Again, thank you for working with Officer Fletcher, as he is an asset to our Department.

Sincerely,

Bill Morley
Mayor
