March 2, 2018

To: Mr. Mike Willis  
From: Chief Allen Miller  
Subject: Equipment for police

Mike:

In February of this year I contacted you and explained that I was the Chief of a small police department in Maryland. I told you my budget was very limited but I needed something that I could issued to my officers to save their lives. I explained with the recent school shootings I would like to have a ballistic shield for my department, since we have nothing like this. After our conversation you thought you could provide us with a ballistic shield.

On March 1, 2018 I received a present in the mail at the police department. When I opened the cardboard packaging, I was surprised to see a brand new ballistic shield. The shield was heavy duty with a clear window to view what was in front of you.

I was like a kid at Christmas because I knew this is what we need should we have an active shooter or other incident where the shield is needed. I put it out so the rest of the officers could view it and everyone was pleased we now have a ballistic shield.

Mike, thank you and the United States Deputy Sheriffs Association for this awesome donation that may one day save the life or one of our officers or an innocent victim.

Chief

Allen Miller
