Mike:

The training exceeded my expectations and I will continue this effort in law enforcement for public safety for many years. I gained a large amount of experience in those 8 hours of instructions, watching and practicing with your feedback.

Thank you for helping prepare us for certain events that are necessary to help maintain public safety. You were the first simulated subject with A0J I have encountered and I am pleased to know our team successfully stopped the threat safely, quickly and as a team.

Please contact me if you think I can be of any help in support of your activities.

Is there a schedule for training events you have for our region including the SC coastal area (i.e. Horry & Charleston counties)?

Witte
