USDSA
2233 S. West St. Ct
Wichita, KS 67213

Dear Mr. Willis and all USDSA personnel,

Thank you so much for your equipment donation of preliminary breathalyzer tests to the Bryan County Sheriff's Office! It will greatly help our department in reaching its goals to help address impaired drivers and keeping our roadways safe for our community and for the public.

Thanks to your organization, we will have the ability to better identify impaired drivers, obtain stronger DUI convictions, and keeping our roadways safe. Your contribution to our department has also helped our department be able to put funds into other equipment we may not have been able to otherwise.

Through growth within our county, we are also seeing an increase in auto collisions due to speeding, distracted, and impaired drivers. Several fatality auto collisions were the result of an impaired driver. The Bryan County Sheriff's Office has created, and continues to grow and maintain, a Traffic Enforcement Team for higher visibility and more traffic enforcement on our roadways. These preliminary breathalyzer tests will assist in helping our Traffic Team and patrol deputies decrease fatality auto collisions through impaired driver identification, and appropriate and immediate corrective action.

Our community is thankful to know that organizations such as yours support law enforcement and their goals of keeping the public's safety their top priority. They can feel more confident that our department has the proper and updated equipment to keep impaired drivers off the roadway.

Thank you for your ongoing support of law enforcement and our department!

Sincerely,

Sheriff Mark Crowe
Bryan County Sheriff's Office
