

Excellent training, very knowledgeable instructors, and a great facility.  
There were many techniques demonstrated to us that we hope to teach to others on the department, or better yet, have them attend to be instructed directly by your outstanding staff.  
Also, I appreciate the gift of the tourniquet. I have been wanting to add one my to my everyday (off-duty) carry. Now I have one to fit that role.  
I look forward to the next training we will be able to attend.

Thanks!
