Camden, North Carolina 27939

Re: USDSA Donated Safety Equipment

Dear United States Deputy Sheriff's Association,

On behalf of the entire Camden County (NC) community, we want to extend our humble gratitude to the United States Deputy Sheriff's Association for the recent donation of traffic safety vests.

On July 14, 2020 our Office submitted a request for twenty-nine reflective traffic vests. Within an hour of the submission, Mike Willis contacted us inquiring about our specific sizing needs. By the end of the day we were informed that our request would be fulfilled and shipped out. While some agency's budgets would not be impacted by this purchase, your donation has saved our small rural agency over \$1,000.

In Camden County, our Sheriff's Office is the only law enforcement agency. Therefore, we are tasked with every facet of law enforcement. This includes, but is not limited to; natural disaster response, traffic enforcement, collision investigations, traffic checking stations, and sobriety checkpoints. These reflective traffic vests will help ensure the safety and visibility of our staff in all conditions. More important than the financial savings, is the potential saving of one of our lives.

Your continued dedicated support of law enforcement is recognized and appreciated, tremendously. Thank you, not just for the donation to our organization, but on behalf of all law enforcement entities across the country. What you do matters!

Respectfully yours,

Sheriff J. Kevin Jones  
Camden County, North Carolina
