October 22, 2019

United States Deputy Sheriff's Association,

On behalf of the Town of Chesterfield, Indiana, The Chesterfield Police Department and all Officers of this agency, I would like to send a special thank you to the entire USDSA team for their donation of 7 Streamlight Stinger flashlights and 20 Emergency Belt Trauma Kits.

This kind donation from your team to ours provides the Officers with two key pieces of equipment that will help maintain Officer Safety and treatment of Officers in a time of need. Flashlights are used daily by Officers; therefore having these 7 new flashlights mounted in each of our patrol cars will make them readily accessible for all of our officers to use when needed. In addition to having the flashlights, it's unfortunate that we are to this point, but being able to equip the officers with their own trauma kit could truly be a lifesaving piece of equipment. Though I hope we never need to use these kits, we are grateful to have them available to our officers now.

Once again we can't thank you enough for your donation to our agency and for your support of Law Enforcement across the country. We will do our part and make sure our community is aware of your support and donation to our agency.

Thank you,

A handwritten signature in black ink, appearing to read "W. J. Ingles".
