***** Media Release *****

The Cimarron County Sheriffs Office would like to thank United States Deputy Sheriff's Association for providing our Office with a ballistic shield that will assist with safer arrest tactics on high-risk contacts along with its use for other deployments like search warrants, building clearing, and felony stop procedures. This item greatly increases the safety of all of our Deputies and other sworn personnel conducting enforcement here in Cimarron County.

We would also like to thank you for providing a new PBT (Portable Breath Test unit) which will be instrumental in assessing impaired drivers along with other assessments where impairment may be suspected and relevant.

These items were provided to our Office at no cost to the Citizens of Cimarron County and will be instrumental in conducting safer and more efficient law enforcement each shift.
