Integrity community service

Dear Director Willis and Executive Director Hinnners,

I arrived at the Police Department today with many things planned for the day. Getting supplies for our Christmas with a Cop program and a few other administrative projects. I did not expect us to be blessed with much needed items for myself and my guys as well as potential victims of a critical incident.

When I checked our mail, I found a package from the United States Deputy Sheriff's Association. When I opened it up, I discovered the life saving gifts your organization sent to us.

We would like to say Thank You for sending these items to our department. They will be put to good use by filling our Active Shooter Bag and Med Kit as well as having it available to carry on our person.
