New equipment

The Bourbon County Sheriff's Office last week received two Preliminary Breathe Tests (PBTs). The PBT's were given to the sheriff's office through the United States Deputy Sheriff's Association out of Wichita. The PBT's will be used to assist deputies in DUI investigations. "These were much needed equipment," Sheriff Bill Martin said. "The cost of one PBT can range anywhere from $400 to $800, depending on the make and model of the PBT. The Bourbon County Sheriff's Office is very grateful to receive the PBT's from the U.S. Deputy Sheriff's Association."
