

I, Sgt D. Travis, with the Greensboro Police Department would like to thank the USDSA Safety Equipment Program for the 10 patrol trauma response kits and the ballistic shield. We are thankful for the equipment to help us serve our community. When officers arrive on gun shot scene or etc we will be equipped with or trauma kits to assist with bleeding, also the ballistic shield will be used in high-risk search warrants and whatever it is deemed necessary. Again, I Sgt D. Travis and the Greensboro Police Department Is very appreciative for the equipment.
