

Thank you for the FLIR Scout TK. It has already been a use to us. One of our Officers used it to watch some individuals at a local storage unit at night prior to him approaching them. Turns out they rented the unit and were dropping off items. The area was not lit so the officer was not initially able to see what they were doing. The good thing is that the Officer was able to have a safe encounter with the individuals.

Thank you again.

Eric Jones
