Recently, Sheriff Abdalla Jr., Sergeant Rath, who manages the Selective Traffic Enforcement Program and the Impaired Driver Enforcement Program through the Ohio Traffic Safety Office and Deputy Yoho reached out to the United States Deputy Sheriff’s Association for assistance in making the roadways in Jefferson County safer for our residents.

The United States Deputy Sheriff’s Association was grateful enough to donate our agency a new Intoxilyzer Portable Breath Test used to keep the roadways safer from impaired driving and five (5) Spike Devil spike strips and one (1) trainer, used to safely and quickly terminate or prevent vehicle pursuits.

This is another advancement towards our initiative to add resources aimed at keeping the residents of Jefferson County safe.
