

Mr. Willis,

Attached please find 3 pictures of equipment purchased by my department using the Grant issued by your agency. Jonesville Police Department is a very small agency with limited funds. We were able to purchase (1) AED battery, (3) rechargeable batteries for flash lights, (2) sets of spike strips, (1) taser and holster as well as (1) laptop that will be used for training and Court purposes. There are still items we will be ordering in the near future, as soon as they become available. Without the USDSA Grant we would not have been able to purchase any of this equipment. It is very much appreciated!

We appreciate all that you do for all law enforcement agencies. Again, thank you for your patience in this matter.

Sincerely,  
Chief Paul James
