United States Deputy Sheriff's Association
2909 S. Spruce
Wichita, Kansas 67216
Attn: National Training Director Mike Willis

Mr. Willis,

I received an email saying the Kansas Racing & Gaming Commission had been approved to receive emergency belt trauma kits for thirty-five (35) of our Agents. Each kit contained a tourniquet, chest seal, compression gauze, cpr mask and gloves.

The addition of this new equipment will allow us to focus on our Agents being able to treat medical trauma emergencies on themselves or others.

The equipment we received from the US Deputy Sheriff's Association has opened up new avenues for our training curriculums and will allow us to introduce some new medical / trauma training for our Agents.

In law enforcement we constantly encounter deadly scenarios and the new equipment we received will allow us to train our staff better and prepare them for the encounters they might experience.

Thank you, for supporting law enforcement and giving our agency the tools necessary to ensure our agents are properly trained to handle the hazards we encounter in our daily duties.

Sincerely,

Darin Altenburg
Enforcement Agent / Agency Training Coordinator
