US Deputy Sheriff's Association

Mr. Mike Willis,

Our organization, The City of Langston Police Department, recently received a grant from the USDSA to obtain vital tools and safety equipment that would allow us to better serve our community and those that pass through. Thanks to your generosity we received 3 portable breath testers, 2 bags of extra straws, 4 boxes of narcotics field test kits, 12 tactical flashlights, and 12 duty rig trauma kits. The City of Langston Police Department strives to maintain the safety of this community and the opportunity to receive such equipment through the USDSA organization is not only vital for the safety and success of our officers, but our ability to serve and protect our community in the best way possible.

Members of our department, and the families we serve in our community; would like you to know that we appreciate your support.

The USDSA's continued financial support for the safety of Law Enforcement Officers is critical to this community and many others across the nation. Thank you for your ongoing support.

Sincerely,

A handwritten signature in black ink, appearing to read "U.R. Yarbrough".

Sgt. U.R. Yarbrough
Langston Police Department
