

United States Deputy Sheriff Association,

Thank you for showing your support of local law enforcement agencies. Through your foundation, the Madison County Sheriff's Department was able to obtain 25 duty belt trauma kits. These kits provide 25 of our Deputies with the ability to administer lifesaving medical care to themselves and others. Along with strengthening the foundation of our Tactical Combat Casualty Care program. These items are greatly appreciated by Deputies and represent your support of the individual officer along with the Madison County Sheriff's Department. During these trying times the USDSA continues to support officers, demonstrating through your staff that law enforcement is not only a career but a way of life.

Thank you,

Madison County Sheriff's Department

Madison County, IN
