Re: Safety Equipment Donation

On behalf of the Madison County Sheriff's Office, I would like to personally thank you for the safety equipment donation. The donated safety equipment was greatly needed, due to our deputies not having items such as tourniquets or quick clot in the event of an emergency. The emergency belt trauma kits will be kept accessible at all times, as well as the vehicle first-aid kits so they can be deployed during an emergency situation. Again, thank you for the donation of the (10) emergency belt trauma kits and the (8) vehicle first-aid kits.

Sincerely,

Sheriff of Madison County
