Please allow this letter to serve as my sincere gratitude for your recent donation to our department. As you are aware, every Municipality faces budget constraints where choices must be made in the prioritization of equipment. These decisions sometimes have the unintended consequence of allowing outdated equipment to remain in use longer than it should be.

Your donation of the PBT significantly helps our department move forward with the replacement of essential equipment.

I know I speak for the rest of our department as I say thank you again.

Respectfully,

Bryan D. Kadingo
Chief of Police
Northampton Borough Police Department
