On July 29<sup>th</sup>, 2021, the Osage City Police Department received a donation of seven **"spike devil"** tire deflation devices. This equipment was provided to us free of charge by the United States Deputy Sheriff's Association (USDOSA).

Due to the cost and other competitive public service equipment, our agency is one of the last municipalities in Osage county to carry tire deflation devices. Without this donation, it may have been several more years before we could buy these devices.

This equipment donation will help our officers, make citizens of our community much safer, and lower the risks involved with the ability to deploy tire deflation devices due to a vehicle-related dangerous situation.

On behalf of the Osage City Police and citizens of our community, thank you to the (USDOSA) for your support and help for law enforcement agencies across the United States.

*"The United States Deputy Sheriff's Association (USDOSA) is a 501(c)(3) non-profit organization dedicated to the support of law enforcement, their families, and their communities through equipment donations, a highly acclaimed national training program, End of Watch donations, scholarships, cash grants, and citizen awareness programs."*
