Oxford Police Department

Chief John Adams

November 3, 2020

United States Deputy Sheriff's Association
Attn: Mike Willis, National Training Director / Law Enforcement Program Coordinator
2909 South Spruce
Wichita, KS. 67216

On behalf of the Oxford Police Department and its members I would like to take this opportunity to pass on a huge "THANK YOU" and debt of gratitude to the men and women of the United States Deputy Sheriff's Association.

Today we received your packages containing a donation of (3) Intoxilyer 500 preliminary breath testing units, (1) 250 count package of replacement mouthpieces, (6) high visibility traffic vests, and (4) boxes of narcotics field test kits.

This donation allows my officers to continue to work towards the removal of narcotics from our community and impaired drivers from our streets. These items will allow for the replacement of outdated BPT's and could not have arrived at a better time of the year.

Like many small community departments, we are not alone in the never-ending, difficult task of budget management and determining how best to replace old and sometimes obsolete equipment, all the while balancing the myriad of competing needs and demands placed on a small operational budget.

Without the generosity of organizations such as USDSA my officers would be forced to make do with duct tape and bailing wire fixes in an attempt to provide the services our community has come to expect from the department.

Once again, our deepest gratitude to all who made this donation possible!

John Adams, Chief of Police
