Staff of USDSA,

Words cannot express the appreciation I have for the recent donation of the Point Blank Bullet Proof Vest and CMI Intoxilyzer 500 from USDSA to the Pocahontas Police Department.

The Pocahontas Police Department is a very small rural department with a very, very small operating budget and new update equipment is very hard to come by. The new vest will replace the one I currently use that is 9 years old. And the new Intoxilyzer will allow us to have a second BPT in service and put our older one in our back up patrol unit.

Again, I cannot express how much this new equipment means to our department. The service and donations that your organization provides is truly a god send to many agencies in need.

Thank you for all you do.

Respectfully,

A handwritten signature in black ink that reads 'Darren L. Jessee'. The signature is written in a cursive style with a large, sweeping initial 'D'.

Darren L. Jessee
Chief of Police
