This letter is to show you our appreciation for the two Intox 500 kits and the 10 BTK first aid kits. As you know our small department would not be able to get these items with such a tight budget. The PBT's have already been placed into service and used on the road. Since acquiring the first aid kits they too have become part of our uniform.

I would also like to thank Mike Willis for his help in making this such an easy transaction. He is a pleasure to work with.

Again thank you for your effort and your cause.
