December 5, 2022

The Sherman County Sheriff's Office would like to say thank you for your generous donation of the FLIR thermal monocular and the ballistic helmet.

As a small, rural agency, The FLIR thermal monocular will be an invaluable tool for search and rescue operations, and a great asset for usage by our K9 Deputy to assist with K9 tracking and suspect apprehension. With our limited budget, a tool like this would normally be unattainable.

The ballistic helmet will be assigned to whichever Deputy is on duty, as they will always be the first on scene for a dangerous incident. With the current climate and increased dangers for Law Enforcement Officers across the country, we cannot put into words how much this will benefit us from a safety standpoint.

Thank you for all that you do for us, and other agencies across the country.

Deputy Cody Hunt #9562 and K9 Jak
