*[Fax] (919) 938-0955*

Dear Mike,

Thank you so much for the generous donation of rifle plate carriers and trauma kits that you recently sent us. The officers at Wilson's Mills Police Department are all extremely grateful for this equipment. It could not have come at a better time, as we have been experiencing increasingly violent drug-related activity, including a recent rolling drive-by shooting involving rifles. It was a great feeling to be able to outfit our officers with this additional protection and know that it not only makes them safer but more effective as they now have additional tools to manage active threats with enhanced ballistic protection and medical equipment.

This donation was not only encouraging for officers, but stimulated great discussion and refresher training on officer safety, tactics and trauma care. The impact of your donation will continue for a long time and help us provide the highest level of service we can to our community.
