7/1/2023

Coordinator Sierra Brandt & Director Mike Willis,

I hope this letter finds you both well. I just wanted to take this time and tell you my department is extremely grateful to be in receipt of the donation of one FLIR device from your organization. I want to personally thank you for what you do. This device has been needed and deployed on multiple occasions already. It will continue to be put to great use and this donation has had an immediate impact for our smaller department. We, like many others, may not be unable to budget for everything we need year to year and your organization's selfless dedication has made a difference. Again, we thank you for what your organization has done for us and will continue to do for countless others!

Respectfully,

Chief Kevin Watson

A handwritten signature in black ink, appearing to read "Kevin Watson".
