RE: Emergency Belt Trauma Kits

Date: April 12, 2023

Dear USDSA,

On behalf of The Colebrook Police Department, I would like to thank your organization for providing the safety equipment for our police department. With tight budgets and few personnel your organization makes it extremely easy to provide the equipment we need while allowing us to stay within our yearly budget. The emergency belt trauma kits that your organization provided for every full-time and part-time employee allows them to be equipped with lifesaving medical equipment easy to use and access.

Sincerely,

Officer Joshua D. Lindor
