To: Director Mike Willis and United States Deputy Sheriff's Association

Dear Mr. Willis

I would like to thank you as the program director and the United States Deputy Sheriff's Association for the donation of the active shooter body armor and the inner carrier body armor vest. The items that were donated will be a great add to my department and our officers. The vest will provide added protection against the threats that we encounter. As we are a small department, all donations are greatly appreciated. We do not have readily available funds for many of these items. It is a great comfort knowing we have these items, even though we hope we never have to use them. Once again, thank you and our organization for your generous support and service and this program.

Sincerely,

Paul Miguez
Chief of Police
Heflin Police Department
