

HENRY COUNTY SHERIFF'S OFFICE

SHERIFF JOHN M. SPROLES

June 23, 2023

United States Deputy Sheriff's Association,

It is with great appreciation that the Henry County Sheriff's Office is writing this letter of gratitude for the donation of equipment from your organization. We will greatly benefit from the FLIR Scout TK that was generously given to us. The Henry County Sheriff's Office in Indiana is responsible for approximately 49,000 residents and most of our county is comprised of rural settings.

The Henry County Sheriff's Office will utilize this FLIR during normal road patrols to assist us in locating suspects that maybe hiding in different environments such as the numerous wooded areas, crop fields, or even inside of residences. This equipment will also be a huge asset to our canine units during tracking to ensure our deputies will remain safe. The Henry County Sheriff's Office SWAT team will also benefit from having this specialized equipment. This thermal monocular will be used by all divisions of our department and we "can not" express our gratitude enough. Thank you for providing equipment to departments in need!

Respectfully,

A handwritten signature in black ink that reads 'John M. Sproles'.

Sheriff John M Sproles
