

To USDSA,

In March of 2023, the Madison County Sheriff's Department (IN) received a ballistic shield donation from your organization. This item will be utilized by the department SWAT team to assist every agency in the county when it is requested. Prior to this donation, the department did not have a quality ballistic shield that could be utilized. Now SWAT Deputies will be able to approach dangerous and rapidly evolving situations with a lower threat to injury. The support given by the USDSA is greatly appreciated and demonstrates the organizations desire to see every officer go home to their families at the end of shift.

From the entire Madison County Sheriff's Department, Thank you!
