**To: United States Deputy Sheriff's Association**

**From: Marshall County Sheriff's Office**

**Date: 03/20/2023**

**Subject: Equipment Award**

Earlier this year the Marshall County Sheriff's Office applied for an equipment grant through the United States Deputy Sheriff's Association (USDASA) with the goal of obtaining a FLIR imaging device to assist on low light searches and apprehensions.

This piece of equipment is a force multiplier and will allow deputies to make quick, safe decisions in situations where decisions must be made quickly.

On 03/16/2023, the USDASA notified the MCSO that we were being awarded the FLIR Scout TKx handheld device (\$700 value). On 03/20/2023, MCSO received the device and is now in service for our community.

It is with great appreciation to the United States Deputy Sheriff's Association that we at the Marshall County Sheriff's Office and our families accept this generous donation to our agency and our community. Support from organizations such as yours allows us to focus on our mission by granting us the tools necessary to do this job safely.
