The Mauldin Police Department would like to thank the USDA for their contribution of ten Emergency Belt Trauma Kits through their Equipment Grant Program.

These Emergency Belt Trauma Kits will be issued out immediately to our School Resource Officers who spend most of their time away from their patrol vehicles and on-foot within their schools. With these kits, we will be able to outfit every single SRO in our agency for use in any future medical emergency.

The Mauldin Police Department gives thanks for these items as they may assist in saving the life of a community member or officer, should the need ever arise.

Respectfully,

Captain Emanuel Hodrea and the Mauldin Police Department.
