To whom it may concern,

I would like to publicly thank the United States Deputy Sheriffs Association for supplying us with a FLIR. The FLIR was free and is a great tool that allows thermal imaging capabilities. The FLIR technology will aid in the use of surveillance and narcotic investigations as we move forward. In today's world, modern technology aids such as the FLIR can be costly and hard to acquire on a limited budget. Thankfully groups like the United States Deputy Association are here to help agencies acquire equipment through grants and donations. These grants and donations reduce money spent, and essentially lower the financial burden on the county.

Thank you to the United States Deputy Sheriffs Association. It will be put to good use!
