

On Behalf of the Warren Police Department and the town of Warren New Hampshire, I would like to thank the USDSA for the donation of a ballistic vest body armor. My department, like many others across the country, has very limited resources. A program like this is very important for small agencies, such as ours, to secure much needed safety equipment that would be otherwise be unattainable. The grant process was easy, and the vest was customer ordered for a perfect fit. Thank you again USDSA, stay safe!
