Re: (10) Emergency Belt Trauma Kits

Ladies and Gentlemen,

I want to take a moment to say, "Thank You All"!! All of our full-time patrol officers now have the means for immediate self-care that is carried on their person. We have vehicle-borne first aid but until now, we had nothing individual sized for each officer to carry with them.

So, again, Thank You for everything you all do to provide equipment to officers' and departments all over this great land of ours!

Sincerely,

Captain Stephen Faircloth  
Warsaw Police Department
