RE: FLIR Thermal Monocular Donation

Coordinator Brandt and Director Willis –

On behalf of our team in the City of White Settlement, we are grateful for your organization supplying a handheld thermal vision monocular. As you are aware, searching at night and during low light situations can pose significant risks to police officers. It also takes a considerable amount of time before aerial drone units can effectively get into the air and engage other thermal imaging systems.

The team appreciates the donation and grant assistance to procure this item. We have posted our appreciation publicly on social media as well. We are grateful for partners like the United States Deputy Sheriff's Association who provide monetary support for law enforcement agencies.

If we can ever be of assistance to your association, please don't hesitate to reach out.

Respectfully,

Christopher Cook
